3. (U) The purpose of the reorganization and MTOE action as indicated above is to:

SECTION II

PART I

OBSERVATIONS (LESSONS LEARNED) (U)

OPERATIONS

(U) Item: Terrorist Activities.

(U) Discussion: A hand grenade was tossed into a moving jeep by two unknown assailants riding a motorbike. The grenade exploded on the front floor of the passenger side of the vehicle. Both occupants of the jeep escaped with only minor injuries; however, the vehicle was a total loss. This incident occurred at an intersection in the vicinity of XS84369524 (Saigon City Map, 1:2,500 scale, series L909, Edition 1-AMS (FE)) at approximately 1110 hours, 5 January 1967. Two men riding on a motorbike were observed following the jeep for a short distance prior to approaching the intersection. As the jeep turned left at the intersection the motorbike pulled up on the right hand side of the jeep, and the passenger on the motorbike tossed the grenade into the jeep. After delivering the grenade, the assailants turned to the right fleeing the scene. The grenade was wrapped in a rag to either conceal it from view and/or silence the noise when landing in the jeep. The two occupants of the jeep managed to jump out of the jeep before the grenade exploded, and escaped with only minor injuries since the vehicle was traveling at a slow rate of speed.

(U) Observation: a. The possibility of escaping from similar incidents is greatly enhanced when the vehicle is moving at a slow rate of speed. Leaping from a fast moving vehicle can be as dangerous as the results of the exploding grenade.

b. Beware of motorbikes carrying a passenger.

c. The rear seat of a jeep can be turned around so that persons occupying the seat can observe to the rear of the vehicle. By folding the rear portion of the canvas top forward and securing it on the underside of the top frame, passengers in the rear seat can make a quick exit. This is not recommended for vehicles that normally carry one individual as it makes the driver vulnerable to attack some distance from the rear of the vehicle.

SECTION II PART II

RECOMMENDATIONS (U)

OPERATIONS

(U) That jeeps assigned to units in the Saigon area, and operated only in the Saigon area, be modified so that the rear passenger seat faces to the rear of the vehicle, if the vehicle normally carries more than one person. Further, the spare tire be removed from the mount and stored under the rear seat and that the rear portion of the top if it is used, be folded forward and secured to the top frame. Establish a policy such that when two or more persons occupy a jeep, configured in this fashion, one person be required to ride in the rear seat.

HEADQUARTERS: 525TH MI GROUP APO 96307 16 March 1967

TO: Headquarters, United States Army Vietnam, APO 96307

1. This headquarters has received the Operational Report-Lessons Learned for the period ending 31 January 1967 from Headquarters 519th Military Intelligence Battalion and forward one copy of the Report.

2. Pertinent comments are as follows:

a. The Commanding Officer did not state the number of days the unit was engaged in training, troop movement, and/or operations per USARV Regulation 870-2, para., 5a(1)(b).

b. In Section I, Significant Organization Activities, the Commanding Officer reports the progress of Modified Tables of Organization and Equipment for the Battalion. He cites the MTOE strength of the battalion at 995 personnel. Because Department of the Army carries the battalion at a strength of 1835 personnel it is recommended that the following be added as paragraph 4, Section I:

"Remaining spaces authorized this battalion under TUSA General Order 39, dated 25 January 1966, have been allocated to the 135th, 149th, and 525th Military Intelligence Groups under a reorganization of the military intelligence organization in Vietnam. This reorganization presently being implemented by MTOE action, is being accomplished at the direction of the Assistant Chief of Staff for Intelligence, Headquarters, US Military Assistance Command, Vietnam."
